

PIGNA IS GRANTED HISTORICAL BRAND STATUS BY ITALIAN GOVERNMENT

Pigna was founded in 1839 in Alzano Lombardo, near Bergamo, by Paolo Pigna and his family. Today, after 180 years, the Pigna site is still there. The mission, right from the start, has been to create the best Made in Italy notebooks for students and workers as well. Even before the coming of television and advertising, Pigna notebooks contributed to the literacy of Italy and entered the collective notional of Italians, thanks to the graphics and design of their covers. Since the '50s, Pigna has expanded its product range to include pencil cases, planners and now backpacks and colored pens aimed to children. Today Pigna is a leading brand in Made in Italy stationery with a vision in motivating people, from children to adults, to rediscover, express and tell their uniqueness.

The historic Pigna brand with the iconic "P" of the 1950s has been added to the Special Register of Historic Brands of national interest, a register set up by the Italian Government in collaboration with Unioncamere (Italian Union of Chambers of Commerce, Industry, Craft Trades and Agriculture).

The aim of the initiative is to protect the industrial property rights of historic Italian companies, enhancing the value of "Made in Italy" production with a view to innovation, sustainability and international competitiveness. The inclusion of a brand in the special "historic brand" register, which can only be obtained for brands that have been registered for at least 50 years, entails a series of measures that aim to guarantee stability and security for Italian companies.

At 31 December 2021, there were 305 brands recognised as historic throughout Italy.

THE IMPORTANCE OF THE CHOICE OF RAW MATERIALS

Pigna will continue to pursue a growth model that is circular, inclusive and with the lowest possible environmental impact according to the principles of environmental sustainability also enshrined in its Code of Ethics. Specifically, the Company is oriented towards a manufacturing model aimed at the responsible management of resources and reduction of energy consumption in its production cycles.

The Company's commitment has come to fruition in the significant expansion of the offer of products with environmental sustainability characteristics. Starting from the stationery sector with the new line of Monocromo Green notebooks, made from recycled paper, and notebook collections made exclusively for Green Pea, with covers made from food waste (e.g. recycled paper obtained from coffee, kiwis and oranges) and pages from organic cotton fibre.

In 2021, Pigna also created commercial and production synergies for the development of new 100% sustainable stationery articles with Arbos S.r.l., one of the few companies in Europe, and the only one in Italy, to have obtained B-Corp certification that acknowledges the most virtuous companies with the goal of not only making profit but also of contributing to social and environmental well-being.

The most important part of the value of procurement is represented by the raw materials and other materials used in the manufacturing process – cardboard boxes, packaging and packaging materials, coils, mechanisms and accessories, plastic material, pulp.

MAIN MATERIAL CERTIFICATIONS

For Pigna, and for all the operators in the paper and wood sectors, certifications are the main tools used to trace the procured materials. Specifically, certification of the raw material aims to guarantee respect for workers, the environment and to prevent the intensive exploitation of the resources.

Il marchio della gestione forestale responsabile

FSC® - Forest Stewardship Council®, international and independent certification for the forest and wood and non wood-based products sector. The aim is to promote and support

Chain of Custody, traceability process that ensures the certified origin of a product originating from a forest. For products made of pulp arriving from certified forests or recycled pulp to be declared FSC®, all the transformation and handling stages must be controlled and identified. Only when all the links are Chain of Custody certified can the product be declared and sold as FSC® certified.

PEFC - Programme for Endorsement of Forest Certification Schemes, based on compliance with the criteria and indicators defined in the Ministerial Conferences on the protection of Forests in Europe (Helsinki 1993, Lisbon 1998).

SUSTAINABILITY AT THE HEART OF OUR DEVELOPMENT MODEL

Without doubt, sustainability is a major part of Pigna's development and growth plan, and it will be increasingly incorporated in the production processes and in the educational and outreach activities on which the Company has always built its strong position.

This aspect is inbuilt in Pigna's corporate culture which, at the end of the 1980s, launched the first product lines made from recycled paper.

Sustainability is central to Pigna's development and growth plan

In order to identify the priority issues for the Company, Pigna has introduced a plan approved by the company's management that has been called on to identify the issues that are relevant for the Company. The work drew inspiration from the materiality issues already illustrated in the 2020 Sustainability Report that have been updated taking into consideration other documents, above all benchmarking of peers, the main sector documents and analysis of press reviews.

The material issues are associated with areas of commitment for the coming years, in line with the sustainable development goals (SDGs: Sustainable Development Goals) promoted by the United Nations.

Discover our commitment to the environment here

Environmental issues

- Environmental management and attention to the circularity of the resources.
- Responsible consumption of energy resources.
- Reliability and responsibility of the supply chain.

Social issues

- Quality of relations with the territory, stakeholders and the world of education.
- Enhancing the value of employees and their growth.
- Attention to and protection of the health and well-being of the human resources.
- Inclusiveness and enhancing the value of uniqueness.
- Product quality and safety.

Improving the well-being of Pigna's people by adopting fairer wage policies and inviting them to take more physical exercise; Using its products as a tool to raise awareness about some key values: sustainability, inclusion and awareness of diversity.

Economic and governance issues

- Ethics and integrity in managing the business.
- Economic sustainability and business innovation.

Investing in the digitalisation and sustainability of products, also through partnerships and collaborations.

Download the 2021 "Sustainability Report" from our website pigna.it for more information.

BIOGRAFIA

Jannik Sinner è nato a San Candido (BZ) il 16 agosto 2001. Ha iniziato a giocare a tennis all'età di 7 anni, e dagli 8 ai 12 anni è stato anche un giovane campione di sci. La sua specialità era lo slalom gigante. Nel 2019 è stato nominato dall'ATP il giocatore rivelazione dell'anno ed è uno dei giocatori più giovani ad aver vinto un torneo ATP 500. Ha lanciato la serie Instagram "What's Kept You Moving", nella quale discute di temi delicati con sportivi e personaggi famosi quali, tra gli altri, il velocista italiano campione olimpico Filippo Tortu e la campionessa paralimpica Bebe Vio. Il suo colpo migliore è il rovescio, ama le superfici dure, il suo torneo preferito sono gli US Open e la città dove gli piace di più giocare è Roma. Nonostante la giovane età, è già uno dei migliori giocatori del mondo.

RECORD BREAKER

- Il più giovane italiano di sempre a raggiungere la top 100.
- Il più giovane giocatore a vincere un titolo ATP pro da Novak Djokovic, Pete Sampras e Rafael Nadal.
- Ha migliorato il suo ranking ATP abbattendo il record di 685 sports in 12 mesi.
- Il più giovane giocatore nelle world top 50 a fine 2022.
- Il più giovane partecipante e vincitore nella storia delle next gen ATP finals.
- Il più giovane giocatore di sempre a vincere un evento ATP 500.
- Il più giovane giocatore a vincere 5 titoli ATP da Novak Djokovic nel 2007.
- Il più giovane giocatore italiano a raggiungere la top 10 nella storia dell'ATP ranking.

DETtagLI

The PdiPigna collections are a mosaic of suggestions of **Italian excellence**, an invitation to observe the world with different eyes and to tell about oneself.

An island of analog beauty in a digital existence.

PdiPigna is an invitation to read the world with different eyes, care, and passion. An island of analog beauty in a digital existence. The space where to tell about life and about themselves, inspired by the excellence of the best made in Italy.

With care, patience, dedication. All PdiPigna notebooks and diaries are designed and created in Italy, with the highest quality Italian paper and materials. With respect for the environment and constant attention to people.

A touch of extravagance in the rigor of a cover with a taste of the past, where the codes of the classic are subverted through the use of precious and lustrous details.

DISPLAY BLACK/PINK COLLECTION + REVERBERATION '70s

Directly from the Pigna archive, a combination of colors and geometries to relive the style of the 70s..Choose the new REVERBERATION 70s notebook by Francesca Occhionero. Precious and lustrous details, such as the cover featuring a light wavy tactile effect and refined pink gold foil graphics. THE WEEKLY diary from the new BLACK/PINK by Francesca Occhionero collection gives a chic touch to your daily appointment with writing.

BLACK/PINK COLLECTION

Celebrates the pleasure of possessing special objects that contain an almost obsessive attention to detail, while retaining a playful power. Artifacts capable of generating writing rituals and creative processes.

WEEKLY DIARY On the one hand, time of days and weeks organized and rationalized, dictated by commitments, events and deadlines. On the other, time dedicated to research, notes, sketches: where intentions take shape freely, frankly, and directly, without censorship or filters.

DISPLAY BELLA COPIA

"Bringing the Italian stylish lightheartedness – la Dolce Vita – into our life, every day"

The Made in Italy concept was born in the 1950s, following the post war period and the economic boom. General taste was fed with fashion, design and creations of all sorts that popularized the idea of Italian fatto bene and mixed it with a Dolce Vita feeling. Like the colored stripes of Pigna's Bella Copia collections, a hymn to an effortlessly stylish and carefree lifestyle dated from 1952

NERO ORIENTE

A timeless piece, the trusted companion of generation of Italians, reinterpreted with contemporary details". Nero Orientè was designed in 1948. It is the notebook that, in Italy, our grandparents and their grandparents used, a milestone in our history and culture. Its original design, now reviewed with a touch of irony, is a mirror of Italian traditional standing.

ENZO MARI

"Simplicity is a smoothed, perfectly designed complexity"

Enzo Mari was one of the greatest Italian artists and designers. He searched for what is essential and for a truly democratic approach to design. In 1963, his work for Danese Milano was focused on getting to the archetype of things around us and on sharing nature's purest forms.

YOURSIGN

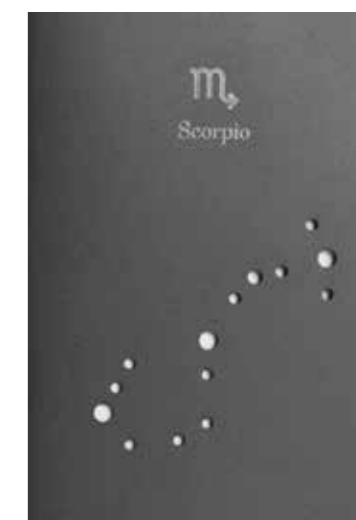

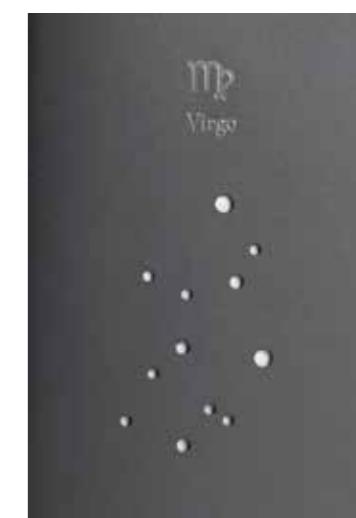

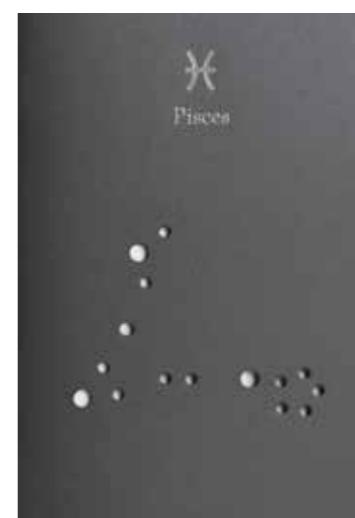

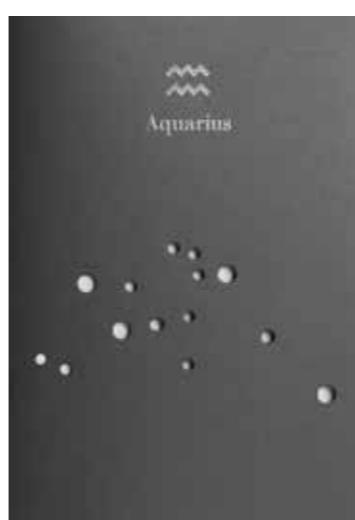

YourSign is a collection of twelve notebooks, one for each sign of the zodiac, created for those who do not seek a fate already written in the heavens, but the signals of the stars to formulate and plan, build and transform their lives.
